ELEGANT WINDOW SYSTEM / Superior technology with a pioneering design

Our window and terrace doors are the perfect solution for all installation requirements in new buildings, old buildings or for refurbishment projects. They impress with their long useful life, innovative nature and sustainability. From a visual aspect, Elegant and aluminium windows virtually look the same - both give houses a stylish, elegant and modern look. For this reason, the system is a practical, ecological alternative to aluminium windows. A unique new development that fulfils demand in regard to thermal insulation, minimalist look and environmental friendliness.

- Using the state-of-the-art 6-chamber technology and a profile depth of 76 mm you can benefit from great energy savings and substantially reduce heating costs.
- Three gaskets provide excellent thermal and acoustic insulation. They also ensure perfect watertightness of the window.
- With its narrow, slimline appearance, combined with a cubic, alu look angular glazing bead system. Elegant Abstract is a completely new generation of designer window.
- From a visual aspect, Elegant and aluminium windows virtually look the same - both give houses a stylish, elegant and modern look.
- The triple-glazing package (used as a standard of the system) allows minimizing energy losses from inside the rooms.
- This quality product is available in a wide range of colours.
- Windows equipped with Siegenia fittings as standard.
